“ Mufti lived with my mother's family in Chicago when he was an exchange student. I had the privilege of meeting Mufti as a child when he came to visit my parents in California. I believe he brought his daughter with him. My mom treasured her connection with Mufti and his sister Nerzia. My mom and dad traveled to Indonesia in the late 80's to visit Mufti, Nerzia and their extended family and friends. They came home with wonderful memories and stories from the trip.
